RE: Public Notice of Draft UIC Class III Permit
No. UTU300001

Dear Mr. York:

Enclosed is a copy of the Moab Salt, Inc. referenced draft Class III Permit with its Statement of Basis for your review and comment. The 30 day public comment period on this permit is scheduled to start March 17, 1993. Written comments can be directed to the Executive Secretary before April 17, 1993.

Some changes were made after your review of the February 9, 1993 draft. These changes are located in both the Statement of Basis and Draft Permit, and refer to the injection volume/extraction volume ratio limit, which has been changed to 1.02. The addendums to the Financial Guarantee Bond and Standby Trust Agreement must be modified to reflect the Division's name change prior to permit issuance.

If you have any questions regarding this permit, please call Jerry Jackson at 538-6146.

Sincerely,

Fred C. Pehrson, P.E., Manager
